

## MATCH FEES/TEAM SHEETS

### WHAT

All BUCS weekly teams pay Match fees. Rolling subs sports pay £2.50 per player and fixed subs sports pay total match fees equal to the £2.50 x the number of starting players (who pays what is up to you).

### WHEN

Fees are due the next work day after your fixture.

### WHERE

You can pay fees into any Sport Brighton reception, they also have blank team sheets in case you have lost yours.

### WHY

Match Fees help us cover the cost of sport and are a contribution from team to cover things like officials (still subsidised). We did offer to include this in Sports Fed membership but clubs decided it was fairer for the extra cost of games to be given to people playing rather than training.

### HOW

It is really important you pay in fees with a team sheet otherwise the money gets lost in the system and you will still come up as being in debt! The Sports Club Co-Ordinator will track match fees and contact you with a 'statement' each month.

Failure or delays in payment reflect poorly on the club so make sure you get them in on time and if you have a problem keep in contact!

Blank team sheets (if you lose the original from your pigeon hole) are available from all receptions.

You don't have to collect fees weekly, some clubs charge members a set fee at the beginning of the year, the captain uses this to pay Sport Brighton each week and then any surplus is used in the club account.
